Race Date: 15 April 2016

MOBOT 22

YOU KNOW YOU WANT TO DO IT!

Past participants and those considering an entry in the races are welcome to join us in April.

Individual and team efforts are particularly encouraged. If you can’t build or design a Mobot yourself, lean on colleagues, friends, or associates in other divisions. There is strength (and often better Mobots!) through collaboration and sharing of skills and knowledge.

PRIZES to winning teams!

Open to the CMU community and alums!

QUESTIONS or to be added to our announcement list: mobot@cs.cmu.edu

The Mobot Races are powered by our great sponsors: Lockheed Martin, Boeing, Harris, Google, Union Pacific and the School of Computer Science
