

SharkFest '17

at the Jared L. Cohon Center
June 19th - 22nd

What is SharkFest™?

SharkFest is an annual educational conference focused on sharing knowledge, experience and best practices among members of the Wireshark open source project global developer and user communities. Participants come together to hone their skills in the art of packet analysis by attending a rich and varied schedule of sessions taught by the most seasoned experts in the industry.

Featuring a Keynote by Dr. Peter Steenkiste

Peter Steenkiste, CMU Professor of Computer Science and Electrical and Computer Engineering, will present a keynote on Wednesday, June 21st, followed by 3 tracks of Wireshark-centric topics delivered by packet analysis experts and core developers.

Carnegie Mellon CS students, faculty, and IT staff and the Software Engineering Institute community are invited to attend the conference to mix, mingle and exchange Wireshark wisdom with SharkFest attendees.
