

PCC 2008: 2nd International Workshop on Proof-Carrying Code

| <p><b>SUNDAY</b><br/><b>JUNE 22</b></p> | <p><b>PCC Workshop</b><br/><b>Newell Simon Hall 1507</b></p>   |
|---|--|
| <p>8:30-9:30</p>                        | <p><b>Registration</b> Newell Simon Atrium</p>   |
| <p>9:30-10:30</p>                       | <p><b>Invited Talk</b><br/>Thomas Jensen<br/><i>Static Analysis for Extended Byte Code Verification</i></p>  |
| <p>10:30-11:00</p>                      | <p><b>Break</b> Newell Simon Atrium</p>  |
| <p>11:00-11:30</p>                      | <p>Robert Grabowski<br/><i>Noninterference for Mobile Code with Dynamic Security Domains</i></p>   |
| <p>11:30-12:00</p>                      | <p>Christian Bell, Robert Dockins, Aquinas Hobor, Andrew W. Appel, David Walker<br/><i>Comparing Semantic and Syntactic Methods in Mechanized Proof Frameworks</i></p> |
| <p>12:00-12:30</p>                      | <p>Andrei Sabelfeld<br/><i>Tight Enforcement of Flexible Information-Release Policies for Dynamic Languages</i></p>  |
| <p>12:30-2:00</p>                       | <p><b>Lunch</b> Newell Simon Atrium</p>  |
| <p>2:00-3:00</p>                        | <p><b>Invited Talk</b><br/>Zhong Shao<br/><i>Modular Development of Certified System Software</i></p>  |
| <p>3:00-3:30</p>                        | <p>Robert Atkey<br/><i>A Practical PCC Framework for Java Bytecode</i></p>   |
| <p>3:30-4:00</p>                        | <p><b>Break</b> Newell Simon Atrium</p>  |
| <p>4:00-4:30</p>                        | <p>Matthew L. Meola, Frances Perry, David Walker<br/><i>A Logic for Reasoning about Faulty Programs</i></p>  |
| <p>4:30-5:00</p>                        | <p>Limin Jia<br/><i>AURA: A Programming Language for Authorization and Audit</i></p>   |
