Cold War/Decolonization/Globalization Unit Review

The following is a review of the terms, identifications, and things to consider from Spodek, 3rd edition, on Cold War, Decolonization and Globalization (Ch. 21, 22, 23, 24).

**Cold War:**
- A Bipolar World
- Kitchen debates
- “Iron Curtain”/Churchill

- Charles de Gaulle
- Hungarian uprising/Nagy
- SALT
- Afghanistan

**Decolonization:**
- client states
- “military industrial complex”
- decolonization
- Ho Chi Minh/Vietminh
- “Congo crisis” of 1960
- National Liberation Front (FLN)/Algeria
- OPEC

**Globalization:**
- Non-aligned nations
- “third world”/Badung Conference

**Cold War:**
- Truman Doctrine

**Identifications:**

- Leonid Brezhnev

**Questions to Consider:**
1. Examine the origins of the Cold War. What were the fundamental differences between the United States and the Soviet Union? What role did ideology play in the Cold War?
2. Examine the situations in Korea and Cuba in relation to the Cold War competition between the Soviet Union and the United States. Who, if anyone, was victorious in these confrontations?
3. Compare and Contrast the American experiences in Vietnam to that of the Soviet Union in Afghanistan. What was the lesson each superpower learned?
4. What role did the fear of nuclear annihilation play in the Cold War? Did the threat of the atomic bomb, strangely enough, keep the Cold War cold?
