Palantir Technologies

Lobby Day at

Carnegie Mellon

School of Computer Science

At Palantir, we work side by side with the organizations that make it possible for us to live safely, travel freely, and invest in the future. We aren't confined to desks in Silicon Valley-wherever our users are, we're there too, working together to solve problems that affect the shape of tomorrow.

Stop by our table to chat with our engineers and grab a morning or afternoon snack!

See you there!
