Tech Talk

Thursday, 9/26/2019 at 6:00pm
Room 4405, Gates Hillman Centers

Join us for dinner as our very own CMU alumnus, Zhuo Chen, discusses how SambaNova is building a software stack and a specialized processor that allows deep learning applications to run orders of magnitude faster than on traditional hardware. Zhuo is currently a Principal Software Engineer on our Machine Learning team.

Dinner will be served. First 10 attendees will receive wireless chargers.
