The power of data is undeniable. A world that’s more predictive, more productive and more personal enables smarter decisions, breakthrough discoveries and deeper connections. As the leading provider of data storage devices and solutions, Western Digital delivers the possibilities of data. You define what’s possible.

Western Digital will be on your campus to host an Information Session and Technical Talk. Western Digital offers data storage solutions for both clients and consumers. Our solutions include HDDs, SSDs, cloud technology, and more. Over 50% of the world’s data is stored on technology provided by Western Digital and its subsidiaries. Western Digital has been building on its portfolio by acquiring companies such as SanDisk in the last several years. Western Digital has 73,000 employees worldwide and continues to grow. Western Digital has an active university recruitment department and primarily hires undergraduate and graduate engineering students in the following areas: computer science, computer engineering, electrical engineering, industrial engineering, mechanical engineering, physics, and material science. Western Digital offers summer internships and full time positions to students.

What: Information Session and Technical Talk hosted by Western Digital
When: 3/25 @ 6:00 pm
Where: Newell Simon Hall, Room 4305

Guest Speakers:
- Carnegie Mellon University alumni Kevin Tzou, Director of Servo Mechanical Development @ Western Digital
- Dr. Jimmy Zhu, Director of the Data Storage Systems Center @ Carnegie Mellon University

Food: will be served!

This event is organized by Lindsey Ritchey, University Recruiter Lindsey.Ritchey@wdc.com
