

Carnegie Mellon University

Review initial meetings

Establishing a professional relationship

Examples of:

- Identifying common ground?
- Establishing shared understanding?

Models of Consulting

- What model of consulting:
 - Does your CP seem to be working under?
 - Are you working under?
- Will taking a capacity building / process consulting approach be difficult?

Situation description

- Are you getting a broad understanding of your CP and their organization?
 - Is there resistance / difficulty to getting any information?
-
- Confidentiality agreements
 - Taboo information

Planning / meeting management

- How did the agenda go on your first site visit?
 - Who ran the meeting?
 - Was the meeting productive?
 - Was the time used fully?

Problem analysis

- What problems have you identified?
- How do those problems affect the mission?

Your community partner

- Does your community partner have an appropriate role to be effective in building the technical capacity of the organization?

This week on site

- What are you going to do this week on site?
