

**17-355/17-655/17-819: Program Analysis**

**In-Class Exercises**

**January 18, 2018**

**Andrew ID:** \_\_\_\_\_

1. Write one or more big-step operational semantics rules for the while loop in the WHILE language (reminder: the loop looks like `while P do S`).

2. Write one or more small-step rules for the same while loop:
