15-859(A) Machine Learning Theory

Homework # 4.5 **Due: March 18, 2004**

---

1. Decide (or narrow down to a couple choices) what you want to do for your project or presentation. Write up a paragraph or so about what you want to do. If you want to give a presentation, say who your partner is, and if there are any scheduling constraints (days you will be out of town, etc).

   Please feel free to come and talk with me about possibilities if you're not sure what you want to do. Or even if you are sure.
