Assignment 2. Reflection and Research Paper and Presentation:

Images of Computing on YouTube

Due Dates: **Wednesday, April 10th (presentations) and Monday, April 15th (papers)**

For this assignment research YouTube videos looking for how computing and/or computer science and the people in the field are represented.

The goal is to identify one video clip (from a movie, TV show, commercial, etc.) which you believe *could have broad appeal* (is **inclusive** of different kinds of people) and *one video clip which would not* (is **exclusive**).

Select as soon as possible and add your choice to the list to prevent duplicates. Add your name and urls of the clips:
https://docs.google.com/spreadsheets/d/1dQiO0G6hnTIcSQ_D8EoMS_tDtqY4e04M2VKIpNW_QiM/edit#gid=0

April 10: Give a 3 minute in-class presentation explaining your choices and show the video clips you've chosen to study.

April 12: Deadline for a 2-3 page single spaced paper describing these two video clips explaining your choices. Include the urls (and any citations).

The paper should include *(but not be limited to)* answers to these questions:
a) who are the target audiences for your chosen video clips?
b) in what ways are these video clips inclusive or not?
c) what are the implicit and *explicit* messages in these video clips?
d) what might the learning outcome be of these video clips in terms of understanding about computer science and the people in the field?
