

15-296 Images of Computing

Assignment 3. Reflection and Research Paper: Due April 24thth

Watch (at least the first 30 minutes) of “Whistling Vivaldi”.

<https://www.youtube.com/watch?v=djYVr9y3nH4>

Reflect on Claude Steele’s discussion about social identity. Steele says society is organized around social identities and things you have to deal with because of your social identity. Apply this idea to yourself thinking in particular about your own relationship to the field of computing, to the people in the field, and to the representation of computing in our culture. You should refer to your learning gained from this class.
