

NARCONON®
SOUTHERN CALIFORNIA

March 23, 2005

Dear

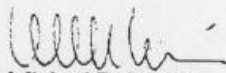

I am writing concerning the situation involving your son, . I am not quite certain what it is that you want this organization to do, as current problem appears to be with the Department of Motor Vehicles and we do not deliver programs for that agency. I am, similarly, not certain what type of counseling you are asking us to certify to that agency.

It is my understanding that you were told, at the time that you decided to send to our program, that we would intervene on his behalf to handle existing legal situations related to his drug abuse and addiction. We do this type of thing on a regular basis. It is, further, my understanding that we did, in fact, intervene on his behalf, and did so successfully. We did not ever claim that we could or offer to handle any situations involving driver's license. It is true that we are not recognized by the DMV as a counseling service and we make no claims that we are so recognized.

While I believe I understand your upset I cannot agree that Narconon failed, in any way, to deliver the service that was promised. He completed our program successfully and we are certainly willing to attest to that fact.

While I normally stand ready to talk to any student or family member, in light of the nature of your correspondence I must require that all communication between us be restricted to written form. This understood, I look forward to hearing from you.

Sincerely,

Michael D. Kobrin
Deputy Executive Director

Dawn Darling

I faxed the 3/29/2005 Superior Court of California, County of San Diego order to you this afternoon. I also included a copy of a letter from Michael D. Kobrin, Deputy Executive Director stating they did not ever claim that they could or offer to handle any situations involving driver's license. As I reviewed the paperwork I was given upon his admission, there is nothing in writing about assisting us legally in any manner, but verbally we were told over and over again promised legal assistance. If DMV isn't a legal matter I'll eat my hat. Why if nothing is in writing did they assist in one thing but not in another?

One of the counselors, named George Villacaqus (spelling), even drove to court one day. I was also present that day. Narconon has been caught and now, as you said they would do, they are claiming they never said they would help legally. This current problem is the same problem had when he was admitted, it is not a new current one. Legal is legal in my mind. M D Kobrin doesn't even have a clue what form is needed according to the first paragraph. (DL 101)

On the last paragraph he doesn't want to talk to me and that is o k too cause I don't want to talk to them either but when you show up Monday I'd love to be a little mouse to see their reaction. All I ask from this point on after our conversation and your commendation is Narconon must notify unsuspecting people who are stressed out anyway be told right up front in their written material they are not licensed to teach DUI and Motor Vehicle work. This should be a law for any counseling group.

As you can see from Anderson & Associates Counseling Services, Inc is already enrolled and that paper has been filed in the Superior Court in Vista. He was given a 30 day leave of absence to get it changed from 18 months to 3 and we took that paper back to Anderson's and first class is next Tuesday at 12:00 noon.

Thanks again for all of your help and support.
