

# 8803 Machine Learning Theory

Homework # 2.5

Due: October 25, 2011

---

1. Think about a couple choices for your project and presentation. Write up a few of paragraphs about what you want to do. For the presentation, please say who your partner is (if any), and if there are any scheduling constraints (days you will be out of town, etc).

Please feel free to come and talk with me about possibilities if you're not sure what you want to do.
