

Sample Schedules – from Fall 2005 Freshman

The following are (mostly) actual schedules sampled from last fall’s freshman class: I have included schedules from two students taking 15-100, five taking 15-200, and three taking 15-123 (which wasn’t actually taught last year: so I faked those a bit).

Courses that meet both in Lecture and Recitation have a Lecture **number** and Section **letter**. For such courses, the lectures correspond to one large group meeting (taught by a faculty member) and the sections correspond to recitations that are much smaller (often led by a graduate student). In the Sample Schedules below, the recitations (e.g., A, B, ...) are listed first and the lecture (e.g., 1) appears later. This is exactly the opposite order that lectures and recitations appear in the online Course Schedule! Please note that you are required to attend all course meetings –it is not a case of pick and choose between Monday/Wednesday/Friday or Tuesday/Thursday. Some courses meet just in Sections (again, specified by a letter); there is no lecture (so no lecture number) for these courses.

Buildings: **BH** is Baker Hall, **DH** is Dougherty Hall, **HL** is Hunt Library, **MM** is Margaret Morrision, **PH** is Porter Hall, **WEH** is Wean Hall. All are a few minutes walk from the others.

Most courses at CMU list between 9 and 12 units, and most students register for 45-54 units per semester. Each unit represents one hour of classwork/homework per week. To be a full time student at CMU, you must register for a minimum of 36 units; Freshman can register for a maximum of 57 units. Students often construct schedules so that they can drop one course and still be at or above 36 units. The schedules shown below were “at the end of the semester”: students showing ~40 units may have dropped a course.

Remember, the times shown below are for classes from Fall 2005; they may be different than the times listed in the Fall 2006 Course Schedule. Many standard Mathematics, Science, and Computer Science courses are scheduled to meet at the same times each year (we have all staked-out our territory).

Schedules for Students Taking 15-100
