Table of Contents

Acoustic-prosodic model	Error! Bookmark not defined.	3
Baseline		3
Experiment Result		3
Analysis and Conclusion:.....		4
Observation on the mistakes and problem analysis		4
Feature predictive ability analysis.....		4
Further experiment on silence feature.....	Error! Bookmark not defined.	5
Observation of the relationship between silence duration and phrase boundary	Error! Bookmark not defined.	
Conclusion.....		7
Investigation on syntactic-prosodic model's performance in instances classified incorrectly with silence in a baseline system adding silence duration feature:		7
Further experiment on pitch.....		7
Normalization.....		7
Difference Feature		8
Shape Feature		8
Voice Quality		8
Pitch regression.....		10
Future work.....		12
Further Experiment on Energy Feature		13
Future work.....		14
Classifier Analysis		14
Other Non-linear Classifier.....		14
Predicting Probability.....		15
Conclusion and Future Work		16
Observation of different break types.....		16
Future Work		17
Syntactic-prosodic model		17
Baseline		17
Experiment Result		18
Result Analysis		18

Relation with acoustic model.....	19
• Collapsing part-of-speech	20
Motivation and observation	20
Experiment and result.....	20
Conclusion:.....	22
• Surrounding feature.....	22
Conclusion	23
Boundary tone detection	23
Combine Model	24
Combine Model through Predicting Probability	24
Investigation on Predicting probability distribution	24
Combine Model through Combined Vector	25
Experiment and Result	25
Future Work.....	27
Extend to Semi-supervised Framework.....	28
Literature Review	28
Background	28
Brief Introduction of Several Popular Algorithms.....	28
Application on Prosody Event Detection	30
Difficulty and Open Issue	31
Investigation on Train Size influence	31
Acoustic model.....	32
Syntactic model.....	32
Analysis on Model Structure with Different Size of Training Data	Error! Bookmark not defined.
Variation of different random seed	34
Experiment and Results of Co-training Algorithm	35
Assign Labels Experiment.....	35
Selection Strategy Investigation	37
Large scale seed (1000 utterances) experiment	38
Observation of the learning curve	39
Experiment and Results of Self-training Algorithm	Error! Bookmark not defined.

Experiment on Boosting Algorithm..... 45

Future Work..... 45

Conclusion and Future Work 46
