10% discount for traveling more than 100 miles round trip.
Cecilia Gonzalez is internationally recognized as one of the most elegant dancers today, combining grace, precision, and innovation. She has partnered with many of the great dancers of our times, and taught throughout the world, including the Argentine International Tango Congress (C.I.T.A) in Buenos Aires for the past five years. In her classes she exhibits a personal warmth combined with humor, discipline, and exceptionally clear explanations. For many aspiring dancers—beginners and experienced alike—she stands out as one of the most influential teachers along the path to appreciating Tango.

In Cecilia's words: “The eye cannot perceive the secret interior path that each dancer feels... emerging full of emotions, giving a sense to the motion. This is, from my point of view, what makes Tango magic and special. I invite you to study, practice and perform this dance... to investigate the possibilities of movement and expression that Tango offers, always in correspondence to the music and in continuous improvisation...”

Somer Surgit is an internationally acclaimed dancer who embodies musicality, elegance, and creativity. Recognized as a unique interpreter of New Generation tango, Somer fuses a variety of influences with his own personal emphasis on genuine individual expression and deep connection with his partners. His sensitivity to music and ability to improvise showcase a richly nuanced choreography with fluidity and elegance.

As an instructor, Somer emphasizes core techniques and fundamentals in both close and open embrace. His profound understanding of movement—both technical and interpretive—and well-developed interpersonal skills allow him to convey the principles of tango succinctly and clearly and enable his students to advance quickly and consistently.
