We’ve sent people soaring above Hogwarts™ castle and crashing their way through Krustyland. We’ve hurled people into the midst of an intergalactic war and then dropped them into the middle of a prehistoric battle.

We’re Universal Creative, and we set the standard for themed entertainment through cutting-edge design and advanced technologies.

Universal Creative is the master planning, creative development, design, engineering, project management, and R&D division of Universal Parks & Resorts, a division of NBC Universal and parent company Comcast. We’re responsible for the creation of theme parks, resorts, attractions, hotels and entertainment destinations around the world, including such ground-breaking attractions as The Wizarding World of Harry Potter™, The Amazing Adventures of Spider-Man®, TRANSFORMERS: The Ride-3D, The Simpsons Ride™, and King Kong 360 3-D.

We’ve received numerous industry awards and patents, and continue to expand in support of new parks and attractions worldwide. And we’re always looking for talented people in a variety of fields to join us as we create newer and bigger entertainment experiences.

If you can tell a story in four dimensions, if you like the challenge of building things that have never been built before, if you like to prove people wrong when they say, “it can’t be done,” we’d like to hear from you.

LOCATION: Newell-Simon Room 3305
TIME: 6 PM

PRESENTERS: Universal Creative Ride & Show Engineers will be presenting at this event.
