## 1 Project Questions

1. How do we plan to interact with Kavita for the Urdu alignments?
2. What language features do we plan to use for the NIST MT enhanced data set?

## 2 NSF Questions

1. Which of my posters should I reference on my Previous Research Essay?
2. Should I cite “the Red book from Monday” (unknown author) as my third reference in the Proposed Research?
3. Does this new revision to the Proposed Research look reasonable?

## 3 Debug Questions

1. Is subj a valid role?
2. Should two adjectives (e.g. “second ugly” or “all five”) correspond to two separate f-structure modifiers? cfstructures.txt:19783 supplemental-clause.txt:135
3. Is cognizer and stimulus a correct combination? “Did the boy know the answer?” cfstructures.txt 5893
4. Are both “comp” and “complement” valid?
5. Must a malefactive correspond to a constituent? supplemental-clause.txt:144

## 4 Recently Accomplished

1. Debugged “if” portion of production rule system
2. Finished writing all 3 NSF essays and began revisions

## 5 Backburner

1. Create construction grammar mapping for “wanted” / “I hope” sentences.
2. Correct corrupt f-structures
