1 LREC Questions

1. Is anything missing?
2. Any suggestions on how I can make it flow better?
3. Shall I submit it Monday, before leave for Mexico?

2 NSF Questions

1. Any final revisions?
2. Matt mentioned explaining the word morphosyntactic, but I think the example now covers it.
3. Alon mentioned [1] make explicit what the corpus could be used for (structure) and could not be used for (vocabulary coverage) and [2] explain/cite BLEU & METEOR, but I think that these are explained to the level of detail we can afford given space and it might be best to limit the essay to 4 citations.

3 Upcoming Dates

- Thu, Nov 1 - NSF GRFP Essays Due
- Mon, Nov 5 - Submit LREC Paper (Technically not due until Wed.)
- Tue, Nov 6 - Sat, Nov 10 - MICAI Conference
- Sat, Dec 1 - NSF GRFP Recommendations Due

4 Recently Accomplished

1. Worked with Jose to correct the Spanish-English corpus.
2. Got Japanese examples from Keisuke.
3. Finished LREC experiment.
4. Created baseline score for LREC.
5. Wrote draft of LREC paper.
6. Revised NSF essays.

5 Current Tasks

1. Submit LREC paper.
2. Submit NSF essays.

6 Backburner

1. Develop NIST experiment data.
2. Create construction grammar mapping for “wanted” / “I hope” sentences.
3. Correct corrupt f-structures
