3rd International Workshop on Security and Rewriting Techniques, June 22, 2008

SUNDAY JUNE 22	SecReT Workshop Newell Simon Hall 3305
8:30-9:25	**Registration** Newell Simon Atrium
9:25-9:30	**Welcome** Newell Simon 3305
9:30-10:30	**Invited Talk** Jonathan Millen *Rewriting Techniques in Protocol Analysis*
10:30-11:00	**Break** Newell Simon Atrium
11:00-11:30	Steve Barber, Clara Bertolissi, Maribel Fernandez *Action Control by Term Rewriting*
11:30-12:00	Horatio Cirstea, Pierre-Etienne Moreau, Anderson Santana de Oliveira *Rewrite-Based Specification of Access Control Policies*
12:00-12:30	Claude Kirchner, Helene Kirchner, Anderson Santana de Oliveira *Analysis of Rewrite-Based Access Control Policies*
12:30-2:00	**Lunch** Newell Simon Atrium
2:00-3:00	**Invited Talk** Hubert Comon-Lundh *Rewriting Techniques and Security Proofs for a Bounded Number of Sessions*
3:00-3:30	Pascal Lafourcade *Relation between Unification Problem and Intruder Detection Problem*
3:30-4:00	**Break** Newell Simon Atrium
4:00-4:30	John Mitchell, Arnab Roy, Mukund Sundararajan *An Automated Approach for Proving PCL Invariants*
4:30-5:00	Musab AlTurki, Jose Meseguer, Carl Gunter *Probabilistic Modeling and Analysis of DoS Protection for the ASV Protocol*
5:00-5:30	**Business Meeting**
