AI for Social Impact: Building Meaningful Careers and Futures

Are you a student or junior researcher who is passionate about technology and driven to make a real difference?

Join us for an inspiring forum that will bridge the gap between cutting-edge tech and meaningful social impact. Whether you will pursue employment in a for-profit organization, academia, or the non-profit sector, you will discover how you can leverage your skills to build a better future.

Featuring:

Panel and Q&A of AI Experts

Lightning talks by industry leaders and CMU students

Presentations on “Tech for Good in Action” by experts in the field
