

Meet Dropbox!

The web is a giant place, and Dropbox is working to make the gap between computers and the internet much smaller. Based in San Francisco, Dropbox is one of the fastest growing startups on the internet, and we're used by people around the world.

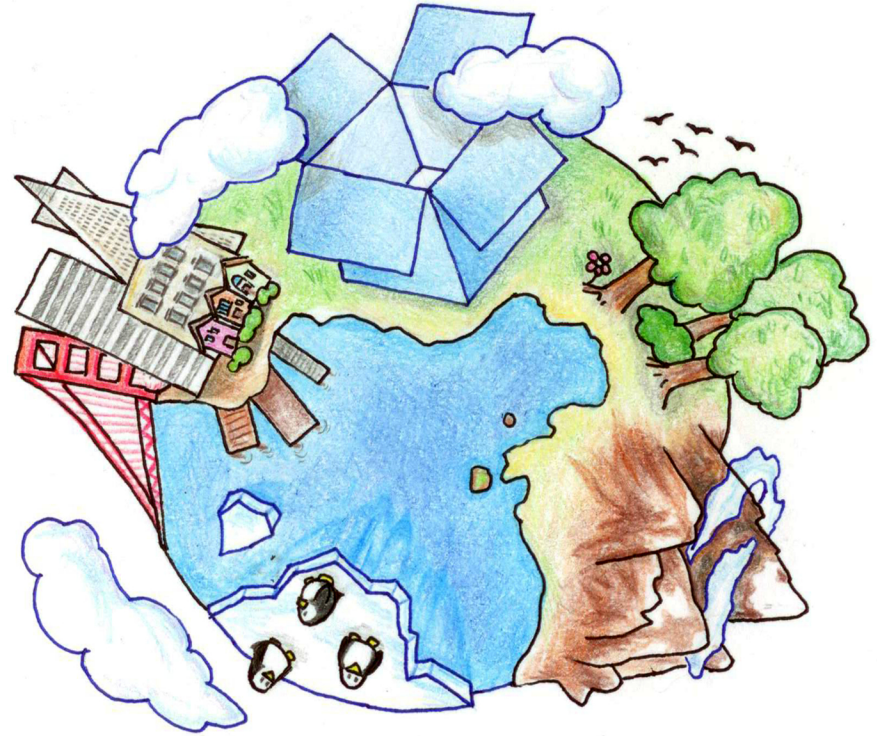

When it comes down to it, you want to work on things you enjoy. You're free to choose what you work on at Dropbox because we want you to own a project and feel passionate about it. Since we don't wait for product cycles, this means you'll start projects on Monday and have them seen by millions on Friday.

Dropbox is working on big problems; the kind of challenges that give you bragging rights. We support millions with only a handful of engineers, and we're looking for great people to join us!

Tuesday, 9/14 - Meet our representatives from 6pm - 8pm
R-Bar, Gates Center

Wednesday, 9/15 - 2010 Technical Opportunities Conference
Booth #150
