Course Description :

18601: Entrepreneurship and Innovation in Technology

Ever want to start a company? Thinking about commercializing an innovation? Want to know what VCs really think? Do you have what it takes to be an entrepreneur? Then take an entrepreneurship class!

ECE announces a new graduate level class: Entrepreneurship and Innovation in Technology. The class is offered Wednesday nights 6:30-9:20pm in Scaife 208.

The class is taught by Babs Carryer, experienced entrepreneur, Embedded Entrepreneur for Project Olympus (SCS), Adjunct Professor of Entrepreneurship (Don Jones Center for Entrepreneurship, Tepper, and Heinz College), and President, Carryer Consulting.
