

Intel is Hiring!!!!

Please Stop by and See Us to Discuss Job Opportunities

Oct 3rd-5th

Talk: Why did UNIX Succeed and how did CMU help make it so

Tuesday Oct 3rd, 5:00 – 6:00pm, Rashid Auditorium – Gates Hillman 4401

Clem Cole, EE&Math '79, one of the people that brought UNIX to CMU in the mid 1970s. He will trace some of the historical contributions that he and his peers in the EE & CS depts. played in early UNIX development and why UNIX was successful over other systems of the day. This is a portion of a larger talk that he will be delivering "*Unix in France and in the United States: Innovation, Diffusion and Appropriation*" International Symposium Oct 19 in Paris.

Bagel Table

Wednesday Oct 4th, 9:30-12:00, Gates 1st Floor

Intel will host an informational table with bagels and coffee! We will also have Intel Engineers available to talk about Job Opportunities.

Intel Informational Session

Wednesday Oct 4th, 5:30 – 6:30pm, Porter Hall A18C

Join Intel Representatives for a talk about the multiple intern and full time job opportunities within the different Intel business groups, such as our Non-Volatile memory Solutions Group, Platform Engineering Group, Artificial Intelligence Group and many others.

Bring your resume and questions, these events are open to BS, MS and PhD students with degrees in Computer Science, Computer Engineering, Electrical Engineering, Chemical Engineering, Chemistry, Mechanical Engineering, Physics, Materials Science, Optics and more.
