

System Jitter and Where to Find it

Presented by: **Tudor Brindus**

In this talk, we'll progressively make the latency of an extremely simple toy trading system more deterministic. These are standard "tricks of the trade" of a high frequency trading shop, some obvious and some not.

Monday, September 18th @ 5:00pm
ASA Conference Room, Gates Hillman Complex

Food and swag will be provided. [Let us know](#) if you plan on coming! Registration is not required to attend but will help us make sure we have enough food and swag.
