

## Cortana Everywhere: An inside look at bringing Cortana from mobile devices to the PC (and back)

*Mike Calcagno*  
*Director of Engineering, Cortana*  
*Microsoft*

### Time

Wednesday, September 30th, 5:00PM

### Location

Rashid Auditorium/ Gates Hillman Center  
5000 Forbes Ave,  
Pittsburgh, PA 15213

Mike Calcagno is a Director of Engineering in Microsoft Applications and Services Group and his team delivers the service that powers Cortana, Microsoft's personal digital assistant. He joined the company in 1999 as a natural language processing specialist, and, from there, his work has gradually shifted to problems in search and anticipatory computing. Cortana has been a great vehicle for bring those interests together, along with interesting problems in the user interaction space.
