

Meet Recruiters from the Software Engineering Institute

The Software Engineering Institute (SEI), based at Carnegie Mellon University, is hiring. The SEI offers opportunities to pursue your passion and work alongside world-recognized leaders in software engineering, computer security, and process improvement. The SEI staff works closely with defense and government organizations, industry, and academia to continually improve software-intensive systems. We help organizations improve their software engineering capabilities and to develop or acquire the right software, defect free, within budget and on time, every time. We're hiring in the following areas:

- **Cybersecurity**
- **Big Data Analytics**
- **Applied Research and Operational Support**
- **Mobile Computing at the Tactical Edge**
- **Digital Intelligence and Forensics**
- **Software Development**
- **Systems Architecture and Design**

Representatives from several SEI programs will visit the SCS on February 28 from 11:30 a.m. – 1:30 p.m. in the Gates-Hillman Center, Room 4405. They will provide a general overview of their work and will discuss opportunities to work at the SEI. You are encouraged to bring copies of your resume.

Lunch will be provided for attendees.

RSVP to Bethany Blackhurst by February 26 at bmb@sei.cmu.edu.
