

**SCHOOL OF
INFORMATION**
UNIVERSITY OF MICHIGAN

2019 Research Experience for Master's Students

**12-week paid summer
research experience
in a highly mentored
environment**

May 28–August 16, 2019

Qualifications

- › U.S. citizen or permanent resident
- › Enrolled in a master's program or 2019 graduate
- › Minimum 3.0 GPA
- › Participate full-time during program

We encourage applicants from underrepresented populations and give top priority to applicants from schools with limited research opportunities.

Research projects in the past have included:

- › Engaging Libraries in Culturally Responsive STEM Programming
- › Designing for Disadvantaged Job Seekers
- › The Future of Data-Related Publications
- › Examining the Impact of Telemedicine on Clinical Work
- › Curiosity and Control in Teams Working with Robots
- › Exploring the Impact of US Public Libraries

Funding previously provided by the
Institute for Museum and Library
Services RE-01-15-0086-15

Are you interested in:

- › Finding out more about what a doctoral program entails?
- › Exploring a research career?
- › Investigating such topics as the impact of libraries and archives, knowledge visualization, user experience, social computing and health informatics?

Then join us this summer for a 12-week research project offering an in-depth orientation, weekly educational seminars, and a \$10,000 stipend.

Apply by Feb. 18, 2019
