Want to do a course project?

STEP 1: choose a 20-minute slot to meet with an instructor to talk about your project.

In that meeting, you will work with the instructor to establish preliminary answers to the questions in this survey.

STEP 2: To prepare for that meeting, please fill in the questions below in as much detail as you can. NOTE: your answers here are not binding, and it's okay if you provide multiple possible options for some answers, or if you can't answer all the questions yet.

1. Email *

2. What is your name?

3. What is the (rough) title of your project?

4. What are the learning goals of your project?

5. What resources do you need for this project? (these can be written resources, connections to experts, budget, etc.)

6. What concrete milestones are you planning to reach by the end of your project?

7. If this is a group project, what are 1-2 expectations you have of your group members?
