

CONTACT INFORMATION	6105 Gates Center, 5000 Forbes Ave. Pittsburgh, PA 15213	willie@cs.cmu.edu (503) 464 6152
RESEARCH INTERESTS	Scalable machine learning, parallel inference algorithms, nonparametric statistics, computer vision, analysis of networks, and computational biology.	
EDUCATION	Carnegie Mellon University , Pittsburgh, PA, United States <i>Ph.D. in Machine Learning</i> August 2012 – Present <ul style="list-style-type: none">• Research Advisor: Eric Xing Columbia University , New York, NY, United States <i>Bachelor of Science</i> September 2008 – May 2012 <ul style="list-style-type: none">• Major: Applied Mathematics, Minor: Computer Science• Research Advisors: Chris Wiggins and Frank Wood	
RESEARCH EXPERIENCE	Carnegie Mellon University , Pittsburgh, PA, United States <i>Scalable Machine Learning for Probabilistic Models</i> September 2012 – Present Worked under the supervision of Eric Xing to develop scalable inference and optimization algorithms, and models, for tasks in computer vision, natural language processing, and network analysis. Columbia University , New York, NY, United States <i>Statistics and Machine Vision Research</i> March 2011 – May 2012 Worked under the supervision of Frank Wood to develop probabilistic models and inference algorithms for unsupervised detection, tracking, and summarization of objects in videos. <i>Machine Learning and Cell Biology Research</i> October 2010 – July 2012 Worked under the supervision of Chris Wiggins to develop software to detect, track, and analyze the motility of T cells for members of the Michael Dustin Laboratory at the NYU Skirball Institute. <i>Statistics and Political Science Research</i> May 2009 – January 2010 Worked with members of Statistics and Political Science departments to study prison sentence lengths.	
WORK EXPERIENCE	Bitly , New York, NY, United States <i>Data Science Intern</i> May 2012 – August 2012 Worked on methods to predict real-world events with bitly data, and on network models to analyze diffusion of information in the social web. Gained experience with Hadoop for large data analysis. Memorial Sloan Kettering Cancer Center , New York, NY, United States <i>Development Analytics Intern</i> May 2010 – August 2010 Carried out analysis, modeling, and forecasting of donor behavior in order to optimize donor targeting. Gained experience with SAS, Enterprise Miner, SQL, R, and Tableau.	
AWARDS	Pittsburgh Filmmakers Spring Mix, Audience Choice Award, 2017 ICML Reviewer Award, 2015 KAUST International Research Poster Competition for Undergraduates, 1st Place, 2012 Department of Applied Mathematics Faculty Award, 2012 CUSP Summer Enhancement Fellowship Winner 2009, 2011 Columbia C.P. Davis Scholar, 2008 Intel International Science and Engineering Fair (ISEF) Finalist, 2006, 2007, 2008 Intel ISEF Grand Prize Award Winner, 4th Place 2006, 3rd Place 2007, 4th Place 2008 National Merit Scholar, 2008

INVITED TALKS *Embarrassingly Parallel MCMC*. Machine Learning Lunch Seminar. Carnegie Mellon University, October 2014.

Asymptotically Exact, Embarrassingly Parallel MCMC. Oxford Computational Statistics / Statistical Machine Learning Reading Group. Oxford University, July 2014.

Asymptotically Exact, Embarrassingly Parallel MCMC. Department of Information Engineering Tea Talk. Oxford University, July 2014.

Unsupervised Detection and Tracking of Multiple Objects with Dependent Dirichlet Process Mixtures. Tutorial for Statistics Department Data Mining Class. Columbia University, January 2012.

ACTIVITIES AND PROFESSIONAL SERVICE *Reviewer* **June 2013 – Present**
Reviewed publications for NIPS, ICML, JMLR, AISTATS, UAI, AAAI, IJCAI, TKDE, STCO, DSP, JSIG, AISM, PLOS ONE, JASA, Biometrika.

CMU Machine Learning Lunch Seminar **September 2013 – Present**
Organized Carnegie Mellon’s Machine Learning Lunch weekly seminar.

Columbia University Beginner Machine Learning Reading Group **June 2011 – May 2012**
Founder, participant, and presenter. Helped organize and conduct meetings.

Society for Industrial and Applied Mathematics (SIAM) **May 2011 – May 2012**
Member of SIAM and board member of the Columbia University SIAM student chapter.

Tutoring **June 2010 – May 2012**
Tutored high school students in mathematics (calculus, precalculus, trigonometry).

RELEVANT CLASSES Machine Learning, Data Mining, Graph Theory and Combinatorics, Applied Computational Math and Physics, Numerical Methods, Scientific Computation, Probability, Statistics, Real Analysis, Complex Analysis, Abstract Algebra, Data Driven Modeling, Statistical Machine Learning, Probabilistic Graphical Models, Randomized Algorithms, Optimization, Advanced Optimization and Randomized Methods

PROGRAMMING Python, Matlab, Java, R, SQL, SAS, Mathematica, C, C++, Shell Scripting, L^AT_EX 2_ε.
